5. New business - In order of priority and based on time 3:15-3:55
 - a. My Voice Survey - review findings, thoughts, ideas and set goals (note taking tool) 20 min
 - i. Student suggestions: more display of student work; more communication of student success; student involvement in setting rules and understanding rules (not just following rules); students feel more of a leadership role.
 - ii. Parent Survey sample size was very small (13) so it's hard to draw conclusions, but there is some disconnect between parent perception and student perception. Also noted that "confidence to take action" has gone down; perception of student drive to do well has gone down.
 - iii. We would like to personalize surveys to add our own questions to get finer grain feedback
 - iv. Desire to see the Teacher Survey results
 - v. Give surveys around conference time to get more parent input; teachers could ask parents personally, or the computer lab could be open at that time for parents.
 - b. SCRIP 10 min
 - i. The group discussed how to make it a more effective way to support the school
 - ii. Two parents are in the process of sorting out the most effective tool for fundraising. We hope to roll it out and promote it in the fall.
 - c. Elections discussion/Bylaws - next steps 10 min
